

Secrecy must be maintained regarding any matters relating to RENK GmbH, RENK Test System GmbH, and their business partners.

Photography and filming are strictly prohibited.

Smoking is prohibited on the company premises with the exception of the smoking areas.

Safety shoes and a **high-visibility waistcoat** must be worn when entering the factory buildings.

Hazardous zones may only be entered after permission from the person in charge.

Persons with **active implants** are not allowed in the areas so marked.

Legal requirements regarding **occupational safety** and **environmental protection** must be observed. The causing party is liable for any damage as a result of noncompliance.

The plant premises may only be entered with a **day visitor or permanent visitor pass**. Access for day visitors is only possible in the company of a RENK contact person. Day visitors must be accompanied when moving around the plant premises. This also includes pick-up and drop-off. Toilet visits and smoking breaks may remain unaccompanied using the shortest routes.

The **visitor pass** must always be clearly visible. On completion of the visit, day cards should be handed in at the reception or gate. **Vehicles and bags may be inspected** when driving into or out of the plant.

Alcohol and other intoxicating substances are prohibited.

Visitors are only allowed to stay in **the areas necessary** for their work or visit. Do not enter other areas. Stay on the marked paths!

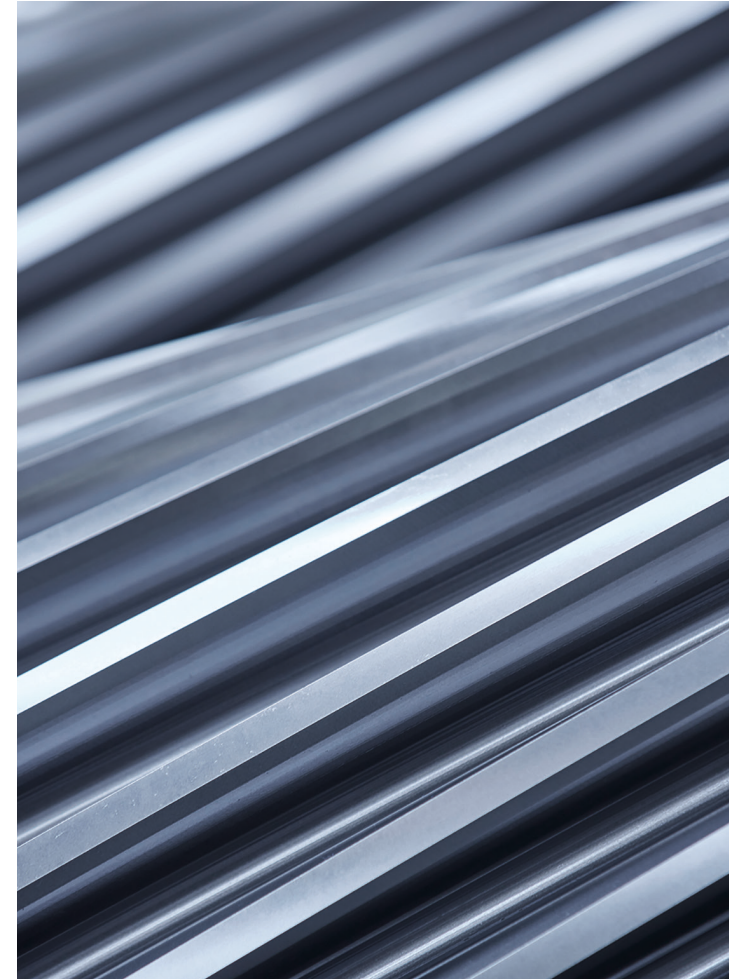

Always follow strictly the instructions of employees from RENK GmbH, RENK Test System GmbH, plant security, occupational and environmental safety.

Hazardous substances and substances hazardous to water must be registered. The statutory provisions must be complied with. Safety data sheets, hazard assessments, operating instructions, etc. must be presented on request.

Road traffic rules apply within the plant. Do not exceed **the maximum speed of 20 km/h**. The rule of mutual consideration applies.

Trusted Partner.
